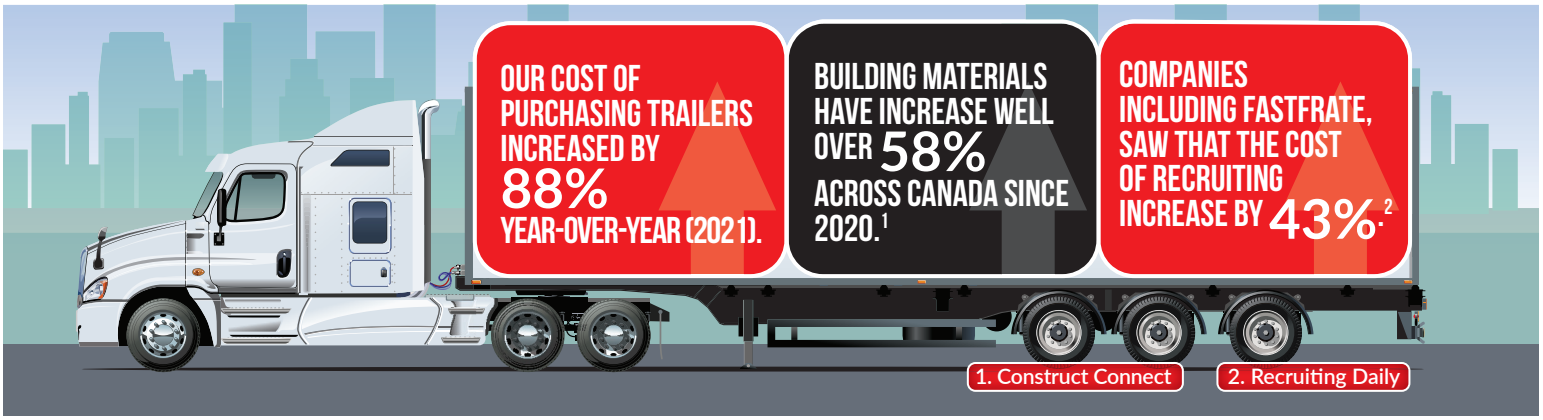
ENHANCING THE CUSTOMER EXPERIENCE

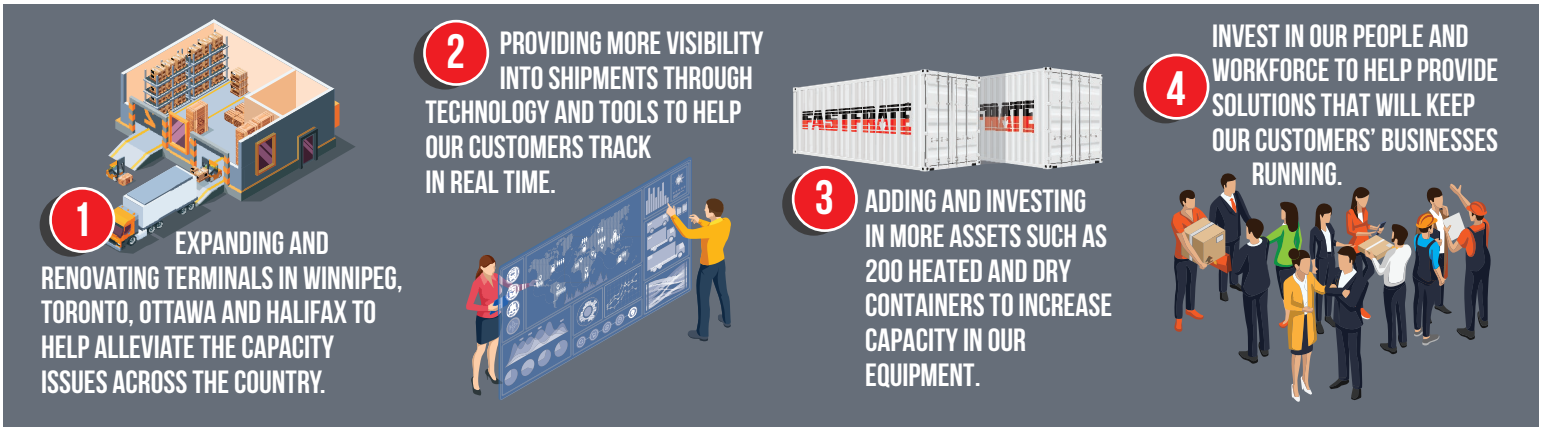
As we navigate through the new landscape post Covid-19 we can all agree that the increased costs in the transportation and logistics industry have risen to levels that are unprecedented. **We have seen:**



We are all affected by these rising costs, and it's caused a major disruption in our industry and posed significant challenges with lack of capacity in every aspect of our supply chain; from lack of equipment to shortage in labour.

As we are driven to be Canada's most trusted and leading transportation company, we have made a commitment to ensure that our customers receive the best experience by providing innovation in our supply chain, opening up more capacity through assets and space but most importantly to keep the flow of goods moving.

Fastfrate is focused on the following main areas to help with our customers' evolving needs:



This investment will allow us to serve you, our customers by providing longevity and supply chain solutions to enhance the customer experience.
